Fon: +49 991 370 24-0
Fax: +49 991 370 24-777
Website: www.kontron-emea.com/EMD

Directions for driving from Munich or Munich Airport

By car: Kontron is located in Deggendorf approximately 140 km east of Munich. From Munich city you take autobahn A9 (direction of Nuremberg) and follow the signs 'Flughafen' taking the exit 'Autobahnkreuz Neufahrn' towards Deggendorf on the autobahn A92. This autobahn will take you directly to Deggendorf. There you take the first exit (Deggendorf Mitte) after crossing the large Danube bridge, take a right at the traffic light and continue on that street until a larger crossroad with traffic lights, there you take a right onto another Danube Bridge direction Fischerdorf/Brunnwiesen. You follow this main road driving through Fischerdorf until you pass under the big autobahn bridge and then you have to take the first road left after this bridge into Brunnwiesenstraße. Our building no. 16 is the second building on the left. Welcome to Kontron!

By Train: From Munich main station several trains a day leave with direction Passau. At Plattling station (10 minutes from Deggendorf) you have to change on the train towards the direction of Deggendorf. From several stations in Germany you can reach Plattling with the Inter City Express. It is as well possible to use a taxi from Plattling railway station to Kontron. It takes about 10 minutes (8 km)

By Aeroplane: Munich Airport is located in about 135km distance from Deggendorf. From this Airport you can go by car to Deggendorf or from Freising station by train, as described above.

BON VOYAGE!
